OBJECTIVES OF THE MUKUVISI WOODLANDS ASSOCIATION WERE FIRST DEFINED AS:

- To conserve and utilise the Mukuvisi Woodlands;
- To provide and develop facilities for education in the principles and practice of nature conservation, environmental studies and research;
- To encourage the public to appreciate the natural environment.

Mukuvisi Woodlands has succeeded very well in all of these, and continues to succeed, particularly in the area of Conservation Education. Our flagship Eco-Schools Programme is helping to create a new generation of environmentally aware and dedicated children, who understand today's burning conservation challenges and issues.
